Shehan Kavishka

Senior Media Executive

Data Science & AI · Media Buying & Automation

Senior Media Executive at Ogilvy with 7+ years in advertising, now blending media buying with data science and machine learning. I build the automation and analytics that run media operations: a reconciliation system that cut ad verification from hours to about 10 minutes, and dashboards that give planners and clients a clear view of schedules, invoices and performance. Completing a BSc in Data Science (London Metropolitan University) and a former Intel ISEF Grand Award winner. Open to remote and relocation opportunities worldwide.

EXPERIENCE

Senior Media Executive — Ogilvy Media

Aug 2024 – Present

Promoted to Senior Media Executive in 2026

- Plan, buy and coordinate TV, radio and press campaigns for SLT-Mobitel end to end: planning, placement, reconciliation, invoicing and client reporting.
- Support media planning and buying to drive cost-efficiency and effective ad placements, coordinating with media outlets to keep schedules on time.
- Build the automation and reporting behind the team's work: the Ogilvy Nova reconciliation system, Ogilvy Orbit and Client Hub dashboards, and the Media Radar forecasting system (see Projects).

Scheduling Officer, Advertising Department — Wijeya Newspapers Ltd

Sep 2019 – Aug 2024

- Scheduled advertisements for Daily Lankadeepa, Ada, Daily FT, Daily Mirror, Sunday Lankadeepa and Deshaya.
- Handled ad artworks and coordinated rates, working with leading advertising agencies and marketing teams.

Research Field Assistant — University of Sri Jayewardenepura

Jan 2019 – Sep 2019

- Supported a microplastic pollution research project led by Prof. Meththika Vithanage: fieldwork collecting environmental samples from multiple locations, plus laboratory sample preparation and testing.

SELECTED PROJECTS

Ogilvy Nova: Media Reconciliation System

Ogilvy · In daily use

- Designed and rolled out an automated reconciliation system for media schedules and invoices (TV/press), cutting processing time from hours to about 10 minutes. It is now in everyday use by the team.
- Matches scheduled ads against broadcast and publication data, flags mismatches for review and produces audit-ready Excel/PDF reports, with documentation and a continuous-improvement roadmap.

Python · Pandas · Fuzzy matching · Excel/PDF reports

Ogilvy Orbit: Operational Dashboards

Ogilvy

- Built dashboards for managing media buying: ad schedules, reconciliation status and invoice approvals in one clean view, improving visibility and follow-up.
- Standardised KPIs and reporting cadences across the team.

Dashboards · BI · Spreadsheets

EDUCATION

BSc (Hons) in Data Science
London Metropolitan University (UK)
2025 – 2026 (reading)

Higher National Diploma in Computing (Data Analytics)
ESOFT Metro Campus
2022 – 2024

Diploma in Information Technology
InfoTech International
2015

CERTIFICATIONS

Meta Certified Digital Marketing Associate
Meta Blueprint

Google Video Ads Certification
Google Ads

TikTok Basic Achievement Exam
TikTok

AI/ML Engineer, Stage 2
SLIIT Open & Distance Education · Dec 2023

SELECTED PROJECTS

Ogilvy Client Hub (Orbit – Chub): Competitive Spend Dashboard

Ogilvy

- Full-screen dashboard for Sri Lankan advertisers: load a spot log (400k+ rows, processed privately in the browser), choose a product group, advertiser and competitors, and compare spend, share of spend, medium split, channel mix and duration mix.
- Exports branded JPG, PDF and PowerPoint reports and a planning report for client discussions.

JavaScript · Browser-side processing · Excel/CSV · PDF/PPT export

Media Radar: Forecasting System

Ogilvy · Competitor analysis

- One service that an agency runs for many clients: planners choose a client and open prediction cards for TVR audience behaviour, market and competitor activity, and client KPIs (leads, sales, traffic, GRPs).
- Forecasts up to 12 months ahead with Google's TimesFM model and adds share of voice, GRPs, CPRP, seasonality, spend scenarios and AI insights.

Python · FastAPI · Google TimesFM · JavaScript

SLT-Mobitel Campaign: Automated Dashboard Reports (Fiber Rush)

Campaign automation

- Built an automated Form → Sheets → Email reporting pipeline that sends twice-daily dashboards (1 PM and 6 PM) for 38 locations, tracking thousands of campaign leads.
- Removed 40+ hours of manual work and gave teams real-time decision support (800+ lines of Apps Script, no external dependencies).

Google Apps Script · Forms · Sheets · Email

AWARDS & ACHIEVEMENTS

Grand Award Winner, Earth & Environmental Science
INTEL International Science & Engineering Fair (ISEF) 2017 · Convention Center, Los Angeles, USA
Organised by the Society for Science and the Intel Foundation. Sri Lanka's first-ever Grand Award winner at ISEF, the world's premier pre-university science competition.

"Mawhiba" Special Award
INTEL ISEF 2017 · Convention Center, Los Angeles, USA
Special award for outstanding achievement and innovation, presented at ISEF.

Finalist
INTEL International Science & Engineering Fair 2017 · Los Angeles, USA
Organised by the Society for Science and the Intel Foundation.

National Winner
Sri Lanka Science & Engineering Fair 2017 · Institution of Engineers Sri Lanka
Winning project: Toxic Cr(VI) remediation using biochar and nanoparticles from wastewater. Earned Sri Lanka's place at Intel ISEF.

Finalist
Sri Lanka Science & Engineering Fair 2017 · Institution of Engineers Sri Lanka

Best School Inventor of the Year 2017
Wayamba University of Sri Lanka, Makandura, Kuliyapitiya
Recognition of outstanding performance in environmental science.

Winner, Science Research Project Competition
National Science Foundation, Sri Lanka · 2016
